UTTO Special

Universal fluid for tractor transmissions, hydraulics, final drives, and wet brakes

technical data

Description

UTTO Special is a modern Universal Tractor Transmission Oil for transmissions, hydraulics, final drives and wet brake systems. The very latest agricultural machinery in the modern intensive farming environment needs the protection of a high quality lubricant.

UTTO Special is blended from carefully selected mineral base oils and the very latest in additive technology to produce a specialised lubricant to meet the latest and most severe transmission requirements. It meets the demands of most agricultural transmission specifications and greatly reduces wet brake noise and chatter. It offers outstanding anti wear performance under the most severe conditions.
