

Trent Mixer Oil

Mixer Oil

Description

Trent Mixer Oil incorporates a blend of highly effective lubricity agents to give any surface the ability to help prevent concrete from sticking to it. The inherent problems concrete hardening and bonding to surfaces are well known and can be time consuming and expensive to resolve. Trent Mixer Oil is designed to help prevent the adhesion and therefore the ability of the concrete to stick to the surface of any equipment it's applied to.

Application

Trent Mixer Oil is easily applied by spray, brush or dipping. It's low viscosity formula allows for ease of use and a high coverage rate.

Benefits

- Low viscosity oil can be applied by brush or spraying with minimum oil mist formation.
- Will cover large surface areas due to its low viscosity.
- Excellent coating properties allowing for effective barrier protection.
- Allows for cleaner surfaces after release and removal of material.
- Inherently Biodegradable.

Typical Inspection Data

Property	Method	Units	Inspection Data
Viscosity Grade	-	-	8
Viscosity at 40°C	D 445	mm ² /s	7.60
Absolute Density, 15°C	D 4052	g/ml	0.829
Flash Point	D 92	°C	180

Health and Safety

Please refer to the relevant Trent Safety Data Sheet.
